## President's Message

Twenty five short years ago this month, a small group of woodworking enthusiasts were struggling to put together a club. They had grand ideas for interesting speakers, monthly newsletters, and juried shows. It was September of 1983 that they selected their first slate of officers and agreed upon a logo. They had already had their first show. There were 23 members who entered 68 pieces in that first show. The categories were "intermediate", "expert", and "professional". Our 2008 Annual Show is coming up in October. Categories have changed a bit (see article page 4) but the goal remains the same. We want to share our work and inspire others. If you haven't finished your piece yet there's still time. We had just over 100 pieces, excellent ones at that, in our show last year. In this, our 25th year we need to make an even better showing. Get to work!

We've come a long way in 25 years. Heck, we've come a long way in the past year. This time last year our Woodworking Education Center was just a dream that might or might not come to fruition. Here we are with a beautiful facility, an array of training going on, our annual show coming up, and we're still putting out a monthly newsletter but we also have a website. No telling where we'll be in another twenty five years!

Think about where you would like the Guild to be in 25 years and do your part to get us there. Share your ideas and energy with the group. We have officer nominations next month. Talk with **Dan Browning** and his committee about the capacity in which you would like to serve. We need all the help we can get.

**Don't miss Techniques for Making and Fitting Doors and Drawers for Furniture with Craig Saterlee coming Saturday, September 20th at the WEC.**

(see schedule for WEC page 2)

## John Lawson will talk to us about "Sharpening chisels (and maybe a plane iron)" at our September 18th Meeting

I know this subject has been beat to death over the years, but something new is available and for everyone who does not sharpen their chisels because "it's too difficult", or "it takes too much time", or "it's too messy".

**So if you suffer from any of the above just bring a chisel or two and see if John can show you how to do it easier, faster, and with no mess.**

I want to share with you cuz  
This weekend work day was a royal buzz

Under the leadership of Kelly and Bartlett  
Much accomplishment was met

Every station organized so neat  
It was no problem our goals to meet

We labored long and steady  
The results were truly heady

For at days end, Glory be!  
We had turned out toys with a total of 393  
(Oh well, two didn't rhyme..ed.)

**Buddy Finch**

## Out-feed Tables Built

**Buzz Kelly** wants to say "Thanks " to the over the hill gang and the other volunteers that showed up to help make the out-feed tables for the table saws.

Thanks to you guys, the WEC now has out feed tables for both of its table saws. Those tables will be instrumental in the building of the kitchen island. One thing kind of leads to another, doesn't it?

Here's hoping some of you learned a thing or two and are able to build tables for your own shops now. A special thanks to **Troy Stroud** for donating one of the table tops.

## What's Happening at the Woodworking Education Center?

Craig Satterlee, well known furniture maker and instructor, will conduct a one day seminar at the Woodworking Education Center in Maylene.

Craig builds furniture on commission in his own shop. He is also an instructor at the Center for Furniture Craftsmanship in Rockport, Maine, provides private instruction and has taught at the Dogwood Institute for Fine Woodworking as well as Woodcraft in Atlanta.

No matter what your skill level don't miss this opportunity to learn from a true professional woodworker.

## SHOW TIME APPROACHES

*After the September Guild meeting there will be just about one month until time to set up for the 2008 AWG Annual Show.* I hope that most of you are ready with your projects, although there is still time to get busy and add another item to those you have prepared already. The show will be organized as it has been for the last several years with four categories:

- Traditional furniture
- Contemporary furniture
- Wood turnings
- Other

Items may be entered in the above categories to be judged by **skill levels of beginner, intermediate, advanced and masters.** Note that the Other category is a "catch-all" category for items that just don't fit in any other category.

You may also enter items into one of the four open categories:

- Wood carvings
- Shop tools/jigs
- Restoration/refinishing
- Toys

*This year we will have two judges, one for furniture and another for turnings. The judges will evaluate each item in each category / skill level based on design, joinery, finish and difficulty. You may also enter items for "Display Only" not to be judged. You may enter an item in the show that has been entered in a previous show, but if it has won a ribbon in the past, it will be for "Display Only."*

We will start the show **set up on Saturday, October 18th at 10 AM.** The show is displayed in the Hoover Library Gallery, which is located on the lower level with the theatre. You can drive up to the entrance at that

level to facilitate loading and unloading your project (rear of library). **The display remains in place until Sunday, October 26<sup>th</sup>, when all items should be picked up starting at 2 PM.**

If you cannot bring your piece during the set-up period, please contact **Paul Mancill** or **Mike Key** for assistance. Please limit items to be judged to no more than three per category. If you won a blue ribbon in a category in the past, consider moving up to the next level. Judging will be Monday the 20th.

We will have our usual reception on **TUESDAY** evening from 6 PM to 8 PM. Bring your family and friends. This is a great time to share with fellow woodworking enthusiasts as well.

*We are expecting a great show this year! If you have not participated in the show in previous years, you are missing out on one of the highlights of the Guild. Not only does it give you an opportunity to show off your work, but also the fun and fellowship experienced as part of the week's activities is a big part of what the Guild is all about. Don't be left out, come and join in the fun.*

### TIP:

**REGISTRATION FORM IS ON OUR WEBSITE**

Having your forms already filled out will save you time and allow more time to look and visit!

As in previous years, we are inviting our friends from Tuscaloosa and Cullman to participate in the show. Now don't let those guys win all the ribbons!

### Need a Light?

Here's an idea for you. If you need extra light when you're working at your bench, consider using a clamp as a light pole and clamp one of those auxiliary lights to it.

You can move the light up and down until it shines just where you need the light.

Maybe you already knew. I didn't until I saw Kelly Mehler rig one of these up for one of my classmates and thought it was the neatest little trick I had seen for a while. So simple but so useful.

Then, I don't get out much.

### Christmas is coming!

Time to start thinking about door prizes for the Christmas party. Who do you know that might donate a woodworking item or a gift certificate to be given as a door prize?

Start asking now before they're all gone.

## Guild Patrons

*We are very fortunate to have the following patrons who support the Guild. They are excellent suppliers of products or services in the local area that provide monetary support or allow us to use their various facilities for Guild functions:*

### **The Dogwood Institute School of Fine Woodworking**

Offers woodworking classes for beginner to advanced woodworkers on various topics with concentration on teaching the "Process" of making furniture. Our signature courses on *Foundations for Fine Woodworking*, has been extremely popular and guides the student through a series of Foundations Courses to prepare them for building quality furniture. Other courses include veneering, turning, finishing and project classes. Next year the school is expanding facilities/courses and will offer several weeklong courses. All courses are taught by master craftsmen with a vast amount of experience in different areas of expertise. Courses are conducted in our spacious horse farm in Alpharetta, GA featuring two large fully equipped barns including a turning studio & steam bending equipment. The environment lends to learning woodworking skills in a pleasant surrounding. Our mission: "To provide quality instructional courses to individuals who are interested in furthering their knowledge of woodworking at all levels of interest and skill." 1640 Mid-Broadwell Rd, Alpharetta, GA 30004 (770)-751-9571 [www.dogwoodwoodworking.com](http://www.dogwoodwoodworking.com)
