

The Alabama Woodworkers Guild

8/11/1983

The next meeting will be held Thursday, August 11, at Pelham High School. The meeting will begin at 7:00 P.M.

Dr. Wesley Miller, owner of Miller's Violin Shop in Homewood, will be our speaker. Dr. Miller has many years' experience in construction and repair of stringed instruments and has prepared an excellent program for us. Discussion will center around non-fretted instruments and will possibly expand into fretted instruments as time permits.

This program should be very informative for those interested in instrument construction and working with some of the more exotic woods.
